

Retraction: Oxidative Stress and Biomarker of Tumor Necrosis Factor Alpha, Malondialdehyde, and Ferric Reducing Antioxidant Power in Hypertension

The original article titled “Oxidative Stress and Biomarker of Tumor Necrosis Factor Alpha, Malondialdehyde, and Ferric Reducing Antioxidant Power in Hypertension” published in *Acta Medica International*, on pages 58-64, Volume 6, Issue 2, 2019^[1], is being retracted because of some honest author errors which negatively impact the technical aspects of the research content mentioned in this article. Plagiarism, fabrication, unethical or redundant publication violates the editorial policy of *Acta Medica International*, which follows best practice guidelines given by the International Committee of Medical Journal Editors (ICMJE) and Committee on Publication Ethics (COPE) mentioned on the Information for Authors and as codified in the signed statements made by the authors regarding the copyright of their work.

This article has been retracted on request of the Authors, Editor-in-Chief and Editorial board of the journal.
